Practices To Write Good Test Case

- Easy to understand and execute
- Unique Test case Identifiers
- Prerequisites should be listed clearly
- Test data should be defined to evaluate each functional area
- Test case description should be concise.
- Test Steps should be in detail and clear
- Specify the exact expected result.
- Test cases should neither too simple nor too complex.
- Test cases must be distinctive. There should not be no repeated test cases.
- Needs to provide clear environment details where we need to execute them.

[illegible]

Test Case ID	Test Case Summary	Related Requirement	Test Procedure	Test Data	Priority	Expected Result	Actual Result	Status	Remarks	Test Case Author	Executed By	Test Environment	Frequency
TC-0000	Check whether user can sign up with username, email and password	User Sign-up	1. Go to the application 2. Then goto Signup page 3. Enter username in the field 4. Enter email in the field 5. Enter password in the field	username: nnraisa email:nnraisa@gmail.com password:123456789	High	1. sign up is successful and user is redirected to the login page	1. User is redirected to the sign in page after successful sign up	Executed		Namisa	Nazifa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0001	Check whether user can sign in with correct email and password	user Sign in	1. Go to the application 2. Then goto Signin page 3. Enter correct email in the field 4. Enter correct password in the field	email:nnraisa@gmail.com password:123456789	High	1.Sign in is successful and user is redirected to the home page	1.User is successfully redirected to the home page after successful sign in	Executed		Namisa	Nazifa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0002	Check whether user can sign in with google	user Sign in	1. Go to the application 2. Then goto Signin page 3. Click "Continue with google" button 4. Select a google account	Google account credential	Medium	1.Sign in is successful and user is redirected to the home page	1. Google sign in is successful	Executed		Namisa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0003	Check whether user can sign in with wrong email and password	user Sign in	1. Go to the application 2. Then goto Signin page 3. Enter wrong email in the field 4. Enter wrong password in the field	email:yyy@gmail.com password:789123456	High	1. proper error message will be displayed "The Email and/or password you entered does not match our records. Try again."	1. Proper error message shown: "User not found"	Executed		Namisa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0004	Check whether user can sign in with correct email and empty password	user Sign in	1. Go to the application 2. Then goto Signin page 3. Enter correct email in the field 4. keep password field empty	email:nnraisa@gmail.com password:	High	1. proper error message will be displayed "The password field is empty.Try again."	1. Proper error message is shown "Wrong credentials"	Executed		Namisa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	2
TC-0005	Check whether user can sign in with empty email and correct password	user Sign in	1. Go to the application 2. Then goto Signin page 3. keep email field empty 4. Enter the correct password	email: password:123456789	High	1. proper error message will be displayed "The email field is empty.Try again."	1. Proper error message is shown "User not found"	Executed		Namisa	Nazifa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	2
TC-0006	Check whether user can access specific lessons pertaining to the programming language	Lessons functionality	1. Go to the application 2. Sign in successfully 3. Go to the learning path 4. Select any of the 4 languages 5. Click on any of the 20 lessons 6. Click "Mark as read" button	email:nnraisa@gmail.com password:123456789 language: C selected lesson:"hello world"	Medium	1. Redirect user to the selected lesson page	1. User is redirected to the selected lesson	Executed		Namisa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0007	Check whether users lesson progress bar is working correctly in the selected language	Lessons progress functionality	1. Go to the application 2. Sign in successfully 3. Go to the learning path 4. Select any of the 4 languages 5. Click on any of the 20 lessons 6. Click "Mark as read" button	email:nnraisa@gmail.com password:123456789 language: C selected lesson:"variables"	Medium	1. Progress bar shows the correct progress 2. The lesson "check" icon is updated	1. Progress bar is upgraded 2. The lesson "check" icon is updated	Executed		Namisa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0008	Check whether user can "Mark as read" a particular lesson multiple times	Lessons progress functionality	1. Go to the application 2. Sign in successfully 3. Go to the learning path 4. Select any of the 4 languages 5. Click on any of the lessons that have already been marked as read 6. Click "Mark as read" button again	email:nnraisa@gmail.com password:123456789 language: C selected lesson:"variables"	Low	1. Nothing happens 2. Progress bar remains the same 3. "Check" icon remains the same	1. Progress bar is the same 2. "Check" icon is the same 3. NOthing happened	Executed		Namisa	Nazifa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	2
TC-0009	Check whether the home page progress and the language specific progress bar matches	Lessons progress functionality	1. Go to the application 2. Sign in successfully 3. Go to the learning path 4. Select any of the 4 languages 5. Check the progress bar percentage 6. Go back to the home page and match the progress percentage	email:nnraisa@gmail.com password:123456789 language: C	Low	1. The percentages match on the home page and on the language specific page	1. The percentages match on the home page and on the language specific page 2. Both percentages are at 10%	Executed		Namisa	Nazifa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1

Test Case ID	Test Case Summary	Related Requirement	Test Procedure	Test Data	Priority	Expected Result	Actual Result	Status	Remarks	Test Case Author	Executed By	Test Environment	Frequency
TC-0010	Check whether user can download the lesson pdf	Download pdf functionality	1. Go to the application 2. Sign in successfully 3. Go to the learning path 4. Select any of the 4 languages 5. Click on any of the 20 lessons 6. Click "Download pdf" button	email:nnraisa@gmail.com password:123456789 language: C selected lesson:"variables"	Low	1. The pdf is downloaded and user can open it to read easily	1. User downloaded the pdf and could read it easily	Executed		Namisa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0011	Check whether user can take quizzes on the particular lesson	Quiz functionality	1. Go to the application 2. Sign in successfully 3. Go to the learning path 4. Select any of the 4 languages 5. Click on any of the 20 lessons 6. Click "Take quiz" button	email:nnraisa@gmail.com password:123456789 language: C selected lesson:"variables"	High	1. The quiz is complete and user is shown their quiz scores	1. User took the test and scored 7/10	Executed		Namisa	Nazifa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	2
TC-0012	Check whether user can take quizzes past the assigned time	Quiz functionality	1. Go to the application 2. Sign in successfully 3. Go to the learning path 4. Select any of the 4 languages 5. Click on any of the 20 lessons 6. Click "Take quiz" button	email:nnraisa@gmail.com password:123456789 language: C selected lesson:"Data types"	Medium	1. Show proper error message to the user "Your time has run out. Take the quiz again!"		Not Executed		Namisa		OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	0
TC-0013	Check whether user can select multiple options at once in a quiz	Quiz functionality	1. Go to the application 2. Sign in successfully 3. Go to the learning path 4. Select any of the 4 languages 5. Click on any of the 20 lessons 6. Click "Take quiz" button	email:nnraisa@gmail.com password:123456789 language: C selected lesson:"variables"	Medium	1. It should not allow multiple selection of choices	1. It didn't allow multiple selection of choices	Executed		Namisa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	3
TC-0012	Check whether user can submit an empty quiz	Quiz functionality	1. Go to the application 2. Sign in successfully 3. Go to the learning path 4. Select any of the 4 languages 5. Click on any of the 20 lessons 6. Click "Take quiz" button	email:nnraisa@gmail.com password:123456789 language: C selected lesson:"variables"	Medium	1. Not submit the quiz 2. Show proper error message "Please complete the quiz"	1. Submitted empty quiz 2. No error message shown	Executed		Namisa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	2
TC-0015	Check whether user can create and join a collaborative room	Mock interview functionality	1. Go to the application 2. Sign in successfully 3. Go to the mock interview 4. Enter a display name 5. Click on the "Create & Join Room" button	email:nnraisa@gmail.com password:123456789 display name: namisa	High	1. Redirect user to the collaborative room with the mock interview functionalities. 2. Show "1 Active collaborator" message	1. User redirected to the room with room id : f5540ad5-a61c-46bc-9baa-1b08dfe58d2b 2. "1 active collaborator" message shown	Executed		Namisa	Nazifa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0016	Check whether user can join an existing collaborative room	Mock interview functionality	1. Go to the application 2. Sign in successfully 3. Go to the mock interview 4. Enter a display name 5. Click on the "Join Room" button 6. Enter the room id	email:najah@gmail.com password:123456789 display name: najah room id:f5540ad5-a61c-46bc-9baa-1b08dfe58d2b	High	1. Redirect user to the existing collaborative room 2. Show "2 active collaborators" message	1. New user redirected to the existing room 2. "2 active collaborators" message shown	Executed		Namisa	1. Nazifa 2. irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0017	Check whether two users can initiate a video call in the collaborative room	Mock interview functionality	1. Go to the application 2. Sign in successfully 3. Go to the mock interview 4. Enter a display name 5. Click on the "Join Room" button 6. Enter the room id 7. Click "Join meeting"	1.email:najah@gmail.com password:123456789 display name: najah 2.email:nnraisa@gmail.com password:123456789 display name: namisa	High	1. The video call starts and the users can see each other in their video windows	1. The video call started and the two users could see each other's videos in two split windows	Executed		Namisa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0018	Check whether the Collaborative "Text editor" works with two users	Mock interview functionality	1. Go to the application 2. Sign in successfully 3. Go to the mock interview 4. Enter a display name 5. Click on the "Join Room" button 6. Enter the room id 7. Click "Join meeting" 8. Click "Text editor" button 9. Write something in the text editor by one user	1.email:najah@gmail.com password:123456789 display name: najah 2.email:nnr@gmail.com password:123456789 display name: namisa	Medium	1. The text editor of the second user should show the texts typed by the first user 2. The text editor of the first user should show the texts typed by the second user		Not Executed		Namisa		OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	0

Test Case ID	Test Case Summary	Related Requirement	Test Procedure	Test Data	Priority	Expected Result	Actual Result	Status	Remarks	Test Case Author	Executed By	Test Environment	Frequency
TC-0019	Check whether two users can collaborate on the "Whiteboard"	Mock interview functionality	1. Go to the application 2. Sign in successfully 3. Go to the mock interview 4. Enter a display name 5. Click on the "Join Room" button 6. Enter the room id 7. Click "Join meeting" 8. Click "Whiteboard" button 9. Write some thing in the whiteboard by one user	1.email:najah@gmail.com password:123456789 display name: najah 2.email:nnr@gmail.com passqord:123456789 display name: namisa	Medium	1. The whiteboard of the second user should show the things written/drawn by the first user 2. The whiteboard of the first user should show the things written/drawn by the second user	1. The whiteboard of the second user showed the things written/drawn by the first user 2. The whiteboard of the first user didn't show the things written/drawn by the second user	Executed		Namisa	Nazifa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0020	Check whether two users can collaborate on the "Code Editor"	Mock interview functionality	1. Go to the application 2. Sign in successfully 3. Go to the mock interview 4. Enter a display name 5. Click on the "Join Room" button 6. Enter the room id 7. Click "Join meeting" 8. Click "Code editor" button 9. Write some thing in the code editor by one user	1.email:najah@gmail.com password:123456789 display name: najah 2.email:nnr@gmail.com passqord:123456789 display name: namisa	Medium	1. The code editor of the second user should show the code written by the first user 2. The code editor of the first user should show the code written by the second user		Not Executed		Namisa		OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	0
TC-0021	Check whether user can access their profile page	Profile	1. Go to the application 2. Sign in successfully 3. Navigate towards the header 4. Click on the profile icon	email:nnraisa@gmail.com password:123456789	Medium	1. Redirected to the profile page of the signed in user	1. User was redirected to their profile page	Executed		Namisa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0022	Check whether user can rename their username in their public profile	Profile	1. Go to the application 2. Sign in successfully 3. Navigate towards the header 4. Click on the profile icon 5. Click on the "Edit your public profile" button 6. Change the username	1.email:nnraisa@gmail.com password:123456789 2. Renamed username: nnnnr	Low	1. Show proper success message "Username updated successfully"	1. proper success message shown "Username has been updated"	Executed		Namisa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0023	Check whether user can change their password in their public profile	Profile	1. Go to the application 2. Sign in successfully 3. Navigate towards the header 4. Click on the profile icon 5. Click on the "Edit your public profile" button 6. Change the password	1.email:nnraisa@gmail.com password:123456789 2. Changed Password: 123456789123	Low	1. Show proper success message "Password updated successfully"		Not Executed		Namisa		OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	0
TC-0024	Check whether user can change their profile picture in their public profile	Profile	1. Go to the application 2. Sign in successfully 3. Navigate towards the header 4. Click on the profile icon 5. Click on the "Edit your public profile" button 6. Click on the profile picture icon 7. upload a new picture	email:nnraisa@gmail.com password:123456789123	Low	1. Show proper success message "Profile picture updated successfully" 2. Profile image icon updated successfully	1. Profile picture upload failed "Your network connection is unstable" 2. Profile image icon remained the same as before	Executed		Namisa	Nazifa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	2
TC-0025	Check whether user can see their "Activity" and "problems Solved" heatmaps correctly	Profile	1. Go to the application 2. Sign in successfully 3. Navigate towards the header 4. Click on the profile icon 5. Scroll down to the heatmap section	email:nnraisa@gmail.com password:123456789123	Medium	1. Show the proper heatmap activities in both of the maps 2. Show correct number of current and longest streaks	1. Showed the proper heatmap activities in both of the maps 2. Showed correct number of current and longest streaks current streak = 1 longest streak = 1	Executed		Namisa	Nazifa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0026	Check whether user can see their "Total No. of Runs vs Date" and "No. of Runs vs Language on {Today}" correctly	Profile	1. Go to the application 2. Sign in successfully 3. Navigate towards the header 4. Click on the profile icon 5. Scroll down to the graph section	email:nnraisa@gmail.com password:123456789123	Medium	1. Show the correct "Total no. of runs vs date" graph data 2. Show the correct "No. of runs vs {Today}" graph data		Not Executed		Namisa		OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	0
TC-0027	Check whether user can delete their account	Profile Deletion functionality	1. Go to the application 2. Create another account 3. Sign in successfully 4. Navigate towards the header 5. Click on the profile icon 6. Go to the edit profile section 7. Click "delete" profile	username: najanajah email: najanajah@gmail.com password:789456123	High	1. User should be able to delete their profile	1. User was able to delete their profile	Executed		Namisa	Nazifa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0028	Check whether user can sign in with deleted credentials	Sign in	1. Go to the application 2. Try to sign in with the deleted credentials	email:najanajah@gmail.com password:789456123	Medium	1. User should not be able to sign in 2. Proper error message should be shown "User not found"		Not Executed		Namisa		OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	0

Test Case ID	Test Case Summary	Related Requirement	Test Procedure	Test Data	Priority	Expected Result	Actual Result	Status	Remarks	Test Case Author	Executed By	Test Environment	Frequency
TC-0029	Check whether the correct current streak and longest streak of the user are shown in the home page	Home page	1. Go to the application 2. Sign in successfully 3. Navigate towards the header 4. Click on the profile icon 5. Scroll down to the heatmap section 6. Note the current streak and longest streak 7. Come back to the home page 8. Match the numbers with the displayed numbers on the top part of the home page	email:nnraisa@gmail.com password:123456789123	Low	1. Displays the correct current streak and longest streak data	1. Displayed the correct current and longest streak data 2. current streak = 1 longest streak = 1	Executed		Namisa	Nazifa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0030	Check whether user can write code in the online code compiler	Code Editor	1. Go to the application 2. Sign in successfully 3. Go to the code editor 4. Then type in the code editor	email:nazifatasneem.13@gmail.com password:nazifa	High	1. The code should be displayed inside the code editor	The code was displayed inside the code editor	Executed		Nazifa	Namisa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	3
TC-0031	Check whether user can run correct code in the online code compiler	Code Editor	1. Go to the application 2. Sign in successfully 3. Go to the code editor 4. Then type in the code editor 5. Click the run button	email:nazifatasneem.13@gmail.com password:nazifa code: #include <stdio.h> int main() { printf("Hello, World!\n"); return 0; }	High	1. The correct output will be displayed	The correct output will be displayed	Executed		Nazifa	Namisa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0032	Check whether user can run incorrect code in the online code compiler	Code Editor	1. Go to the application 2. Sign in successfully 3. Go to the code editor 4. Then type in the code editor 5. Click the run button	email:nazifatasneem.13@gmail.com password:nazifa code: #include <stdio.h> int main() { printf("Hello, World!\n") return 0; }	High	1. The error message should be displayed in the output	The error message was displayed in the output	Executed		Nazifa	Namisa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0033	Check whether user can delete the output in the online code compiler	Code Editor	1. Go to the application 2. Sign in successfully 3. Go to the code editor 4. Then type in the code editor 5. Click the run button 6. Then click the delete button next to the output	email:nazifatasneem.13@gmail.com password:nazifa code: #include <stdio.h> int main() { printf("Hello, World!\n"); return 0; }	High	1. The previous output should be gone and it should say "Output will appear here..."	1. The previous output was gone and it said "Output will appear here..."	Executed		Nazifa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0034	Check whether user can analyse the output in the online code compiler	Code Editor	1. Go to the application 2. Sign in successfully 3. Go to the code editor 4. Then type in the code editor 5. Click the run button 6. Then click the Analysis button next to the output	email:nazifatasneem.13@gmail.com password:nazifa code: #include <stdio.h> int main() { printf("Hello, World!\n"); return 0; }	Medium	1. There should be a separate box next to the output box where the code analysis will be displayed	There is separate box shown next to the output box where the code analysis is displayed	Executed		Nazifa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0035	Check whether user can switch to dark/light mode in the code editor	Code Editor	1. Go to the application 2. Sign in successfully 3. Go to the code editor 4. Click on the switch button on the top right	email:nazifatasneem.13@gmail.com password:nazifa	Low	1. The code editor display should be switched to dark or light mode	The code editor display was switched to the opposite mode	Executed		Nazifa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	2

Test Case ID	Test Case Summary	Related Requirement	Test Procedure	Test Data	Priority	Expected Result	Actual Result	Status	Remarks	Test Case Author	Executed By	Test Environment	Frequency
TC-0036	Check whether user can download the code written in the code editor	Code Editor	1. Go to the application 2. Sign in successfully 3. Go to the code editor 4. Write code in the code editor 4. Click on the download button on the top right	email:nazifatasneem.13@gmail.com password:nazifa code: #include <stdio.h>	Medium	1. The written code will be downloaded into your device	The written code was downloaded into the device	Executed		Nazifa	Namisa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	3
TC-0037	Check whether user can submit a solution in practice problems	Practice Problems	1. Go to the application 2. Sign in successfully 3. Go to Practice Problems 4. Select a problem called 'Two Sum' 5. Type your solution in the editor 6. Click on submit solutions	int main() email:nazifatasneem.13@gmail.com password:nazifa code: class Solution { public: vector<int> twoSum (vector<int>& nums, int target) { unordered_map<int,int> map; for(int i=0;i<nums.size()); i++	High	1. The correct output will be displayed in the output box		Not Executed		Nazifa		OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	0
TC-0038	Check whether user can submit an incorrect solution in practice problems	Practice Problems	1. Go to the application 2. Sign in successfully 3. Go to Practice Problems 4. Select a problem called 'Two Sum' 5. Type an incorrect code in the editor 6. Click on submit solutions	email:nazifatasneem.13@gmail.com password:nazifa	High	1. The output box will show "Error: Failed to evaluate code. Please try again."	The output box will showed "Error: Failed to evaluate code. Please try again."	Executed		Nazifa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0039	Check whether user can submit a solution in different languages in practice problems	Practice Problems	1. Go to the application 2. Sign in successfully 3. Go to Practice Problems 4. Select a problem called 'Two Sum' 5. Change the selected language to Python using the button on top of the editor 6. Type your code in the editor 7. Click on submit solutions	email:nazifatasneem.13@gmail.com password:nazifa code: class Solution: def twoSum(self, nums: List[int], target: int) -> List[int]: n = len(nums) for i in range(n - 1): for j in range(i + 1, n): if nums[i] + nums[j] == target: return [i, j] return [] # No solution found	Medium	1. The correct output will be displayed in the output box		Not Executed		Nazifa		OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	0
TC-0040	Check if the statistics bar is incrementing correctly in Practice Problems	Practice Problems Statistics	1. Go to the application 2. Sign in successfully 3. Go to Practice Problems 4. Select a problem called 'Two Sum' 5. Type your solution in the editor 6. Click on submit solutions 7. Check statistics bar on top	email:nazifatasneem.13@gmail.com password:nazifa code: class Solution { public: vector<int> twoSum (vector<int>& nums, int target) { unordered_map<int,int> map; for(int i=0;i<nums.size()); i++ }	Medium	1. The statistics bar should increment the Problems Solved, Problems Attempted, Total Submissions by 1.	The statistics bar incremented the Problems Solved, Problems Attempted, Total Submissions by 1.	Executed		Nazifa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	2
TC-0041	Check if the Total Problems Solved is incrementing correctly in Progress Tracker	Progress Tracker	1. Go to the application 2. Sign in successfully 3. Go to the Practice Problems 4. Check the count of Problems Solved 5. Now go to the Progress Tracker 6. Match the count of Total Problems Solved to the previous count	email:nazifatasneem.13@gmail.com password:nazifa	High	1. Both counts should match	Both counts matched	Executed		Nazifa	Namisa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0042	Check if the Total Problems Attempted is incrementing correctly in Progress Tracker	Progress Tracker	1. Go to the application 2. Sign in successfully 3. Go to the Practice Problems 4. Check the count of Problems Attempted 5. Now go to the Progress Tracker 6. Match the count of Total Problems Attempted to the previous count	email:nazifatasneem.13@gmail.com password:nazifa	High	1. Both counts should match	Both counts matched	Executed		Nazifa	Namisa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1

Test Case ID	Test Case Summary	Related Requirement	Test Procedure	Test Data	Priority	Expected Result	Actual Result	Status	Remarks	Test Case Author	Executed By	Test Environment	Frequency
TC-0043	Check if the Language-wise Progress is updating correctly in Progress Tracker for Python	Progress Tracker	- Go to the application - Sign in successfully - Go to the Practice Problems - Select a problem called "Two Sum" - Write the solution in the editor - Click on Submit Solution - Now go to Progress Tracker - Check the Language-wise Progress for python	<pre>email:nazifatasneem.13@gmail.com password:nazifa code: def solution(): # Write your code here nums = list(map(int, input_data.strip("[]").split(","))) target = int(input()) num_map = {} for i, num in enumerate(nums): complement = target - num if complement in num_map: return True num_map[num] = i return False</pre>	High	1. The "Attempted" count should increment by 1 in the python section and the "Solved" count will also increment if the code was correct	The "Attempted" count incremented by 1 in the python section and the "Solved" count also incremented	Executed		Nazifa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	3
TC-0044	Check if user can download the certificate	Certificate	- Go to the application - Sign in successfully - Click on the certificate button on the sidebar - Click on Download Certificate button	<pre>email:nazifatasneem.13@gmail.com password:nazifa</pre>	High	1. A certificate will be downloaded to your device as a png file	A certificate was downloaded to the device as a png file	Executed		Nazifa	Namisa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0045	Check if user can close the certificate	Certificate	- Go to the application - Sign in successfully - Click on the certificate button on the sidebar - Click on Close button	<pre>email:nazifatasneem.13@gmail.com password:nazifa</pre>	Low	1. It will take us back to the home page	It didn't take us back to the home page and instead showed a blank screen	Executed		Nazifa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0046	Check if the Recent Activity is updating correctly in Progress Tracker	Progress Tracker	- Go to the application - Sign in successfully - Go to the Practice Problems - Select a problem called "Valid Parentheses" - Click on Submit Solution - Now go to Progress Tracker - Scroll down to recent activities	<pre>email:nazifatasneem.13@gmail.com password:nazifa</pre>	Medium	1. It should say: "Attempted" "Valid Parentheses"	It displayed: "Attempted" "Valid Parentheses"	Executed		Nazifa	irfan	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
TC-0047	Check if the Language-wise Progress is updating correctly in Progress Tracker for Javascript	Progress Tracker	- Go to the application - Sign in successfully - Go to the Practice Problems - Select a problem called "Two Sum" - Change the coding language to Javascript - Write the solution in the editor - Click on Submit Solution - Now go to Progress Tracker - Check the Language-wise Progress for Javascript	<pre>email:nazifatasneem.13@gmail.com password:nazifa code: function solution() { // Write your code here const nums = input.replace(/\[\]/g, "").split(",").map(Number); const target = parseInt(readline()); const numMap = new Map(); for (let i = 0; i < nums.length; i++) { const complement = target - nums[i]; if (numMap.has(complement)) { return true; } numMap.set(nums[i], i); } return false; }</pre>	High	1. The "Attempted" count should increment by 1 in the Javascript section and the "Solved" count will also increment if the code was correct		Not Executed		Nazifa		OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	0
TC-0048	Check if the Language-wise Progress is updating correctly in Progress Tracker for Cpp	Progress Tracker	- Go to the application - Sign in successfully - Go to the Practice Problems - Select a problem called "Two Sum" - Change the coding language to C++ - Write the solution in the editor - Click on Submit Solution - Now go to Progress Tracker - Check the Language-wise Progress for Cpp	<pre>email:nazifatasneem.13@gmail.com password:nazifa code: #include <iostream> #include <sstream> #include <vector> #include <unordered_map> using namespace std; void solution() { // Write your code here string nums_str; getline(cin, nums_str); // Read target line int target;</pre>	High	1. The "Attempted" count should increment by 1 in the Cpp section and the "Solved" count will also increment if the code was correct	The "Attempted" count incremented by 1 in the Cpp section and the "Solved" count also incremented	Executed		Nazifa	Namisa	OS: Windows11 Browser: Chrome Device Info:Dell Laptop Database: MongoDB	1
